VINYL SHAKES

BEACH HOUSE VINYL SHAKES

The Beach House Shake - delivers a look so realistic and stunning, you'll feel the urge to touch it. From the texture—right down to the subtleties of grains and saw cuts—to its unmatched realism as experienced through the natural keyways and tone variations. Beach House Shakes are a low-maintenance exterior that doesn't compromise the authentic beauty of cedar.

FAUX STONE

- Quality Stone is THE most realistic stone panel in the industry
- All pieces are cast from real stone, giving real texture
- QS Panel Lock system provides tight panel fit
- Proprietary multi-step coloring system is the final step in making Quality Stone look like the real thing
- Impact resistant high-density polyurethane
- Titanium oxide, abrasion-resistant finish
- Designed for Canadian climates

**FORMA
PLANK**
STEEL WALL PANEL SYSTEM

METAL WOOD GRAIN CORNER

The forma plank steel wall panel system provides a stylish and clean look much like flat paneled siding but with the superior sustainability and durability of steel cladding.

This hidden fastener panel comes in two widths with a coverage of either 6¼" or 8½". Both panels feature a reveal of 1" and are installed with a floating clip system for thermal expansion and contraction. Forma Plank is ideal for small additions and residential buildings to large scale commercial, retail and multi-family projects.

Paired with our Woodgrain Series finishes, Forma Plank gives the same warmth and aesthetics of wood veneer or woodgrain vinyl siding but will not chip, fade or peel. Looking for a modern look without the wood? Our Forma Plank Wall Panel System is also available in over twenty 24-Gauge colours.

METAL ACCENT PANEL 1/9

Similar to FC-36 with a Cleaner & Smoother Look

Our 1/9 Panel shares many of the same characteristics of our most-popular FC-36 panel, including the 3/4" rib height and 9" spans, but keeps it simple on the ribs and flattens out there the FC-36 features a bell top. This provides a smoother profile for roof and wall applications for a slightly more modern look.

Standard 29 Gauge Colours * Also Available in 26 Gauge

Specifications

Similar to FC-36 with a Cleaner, Smoother Look

Application: Roof/Wall

Slope: 2/12 with Overlap Sealant

Slope: 3/12 without Overlap Sealant

Coverage: 36"

Rib Height: 3/4"

Available in 26 & 29 Gauge in Standard Colours

Also Available in 24 Gauge Standard Colours

Also Available in 22ga Weathering Steel

Cutting charge applies below 48"

METAL ROOFING

FC 36

The Strongest and Most Widely Used 3/4" Panel

With a full 3/4 tall rib designed for maximum rigidity, FC-36 is engineered to strike the ultimate balance between economy and strength. The overlap anti-siphon channel keeps the weather outside, while the 40 year paint guarantee and ultrahigh-tensile substrate keeps the exterior looking great for years to come.

Originally designed for traditional and agricultural buildings, the FC-36 panel is extremely durable and designed to stand the test of time in all climates. This most popular profile is also used in residential roofing, for modern-industrial accents, and on retail and other commercial building designs.

Standard 29 Gauge Colours * Also Available in 26 Gauge

Only Available in 26ga

Specifications

Bell Top Results in Strongest 3/4" Panel

Class 4 Impact Resistance

Overlap Anti-Siphon Channel

Composite Decking

Decking gets an upgrade with an uncapped composite decking board that works better than pressure-treated lumber. When it comes to creating custom artisan decks, no material cuts, rips or bends better while still maintaining its integrity. That's because our Solid Core runs through the entire Vantage deck board to ensure protection without a cap. As a result, there's no need for painting, staining and yearly repairs with Vantage boards, a beautiful decking option that's resistant to moisture, rot and warping.

Versatile. Durable. Dependable.

Solid Core

An impermeable barrier that fights damage from moisture, rot, insects and other harmful elements.

Zero Field Failures

Our products have stood up to the elements for more than 30 years with no structural field failures.

Works Like Real Wood

Cuts and rips with the same tools you'd use to install a customized wooden deck.

Reversible Boards

Reversible boards feature a natural wood-grain texture on both sides, allowing use of either side for easier installation.

Self-healing

Self-healing properties minimize the appearance of wearing and scratching.
